### **DETAILED ACTION**

1. This office action is in response to an amendment filed June 22, 2009. Claims 9-16 were previously pending. Applicant amended claims 9-12. Claims 9-16 will be examined.
2. Applicant's amendments overcame the previously presented rejections. Since no references were found teaching or suggesting claims 9-16, they are allowed.
3. However, there are still other matters that need to be resolved before the case can be allowed, namely, new matter in the specification and incorrect sequence listing.

#### ***Specification***

4. The amendment filed June 22, 2009 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicant added the following to the third paragraph on page 2 (the added part is underlined):

"The NOD2/CARD 15 gene has the following Gene Bank Accession Number: AC007728 and NG 007508.1 (SEQ ID NO. 14) from the NCBI data base~~AQ534686-~~"

However, this addition is not supported by the original disclosure. The accession No. NG\_007508.1 was not mentioned in the original disclosure, and, further, its publication date is April 4, 2008, which is four years after the earliest priority date. Further, addition of this sequence is not necessary for proper incorporation by reference of sequence NM\_022162.

Applicant is required to cancel the new matter in the reply to this Office Action.

#### ***Sequence Rules Compliance***

5. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.F.R. § 1.821(a)(1) and (a)(2). However, this application fails

to comply with the requirements of 37 C.F.R. §§ 1.821-1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132.

APPLICANT IS GIVEN time of response to this office action WITHIN WHICH TO COMPLY WITH THE SEQUENCE RULES, 37 C.F.R.. §§ 1.821-1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 C.F.R. § 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 C.F.R. § 1.136. In no case may an applicant extend the period for response beyond the six month statutory period. Direct the response to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the response.

In addition to the faulty CRF, Applicant failed to provide a statement that the CRF and the paper copy of sequence listing are the same and that no new matter has been added. There was no amendment directing insertion of the sequence listing into the specification.

### ***Conclusion***

6. This application is in condition for allowance except for the following formal matters:  
Objection to specification based on new matter and improper sequence listing.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
